Hanging Washroom Signs		Number P004	Date Posted: Sept. 20/10
Category Property & Maintenance - Indoor	Type Project		
Description Newcomers to the church often have to ask where the washrooms are, even when they are just metres away. The problem is that the signs are on the doors and therefore not visible when the door is open or if person isn't directly in front of it. There are at least two possible solutions, each of which involve mounting/hanging a sign perpendicular to the wall above the washroom door. If we can find the correct mounting hardware, a rigid sign could be affixed to the wall. The sign would be approximately 4" by 12". The other option would be to find something which could also be mounted on the wall from which the sign could be suspended by chain or something else. This project would involve also deciding the number and location of the signs.
